### The Tree of Heaven: to be, or not to be Thursday, June 25th 6:30 pm - 7:30 pm

The tree of heaven is labeled an invasive and disliked by many because it is home to the Spotted Lanternfly. Many are actively trying to rid of this plant because of its invasive nature, but who are we to decide what gets to live and die on this Earth? In this week's episode, we discuss the essence of life and the significance of plants and animals beyond their disliked traits.

## Philadelphia Watershed Stewardship Updates

This week is the fourth week of the Philadelphia Watershed Stewardship Program! This week, the stewards are learning about sustainability and waste. A large part of sustainability is the zero waste movement. Zero waste is a set of principles focused on waste prevention that encourages the redesign of resource life cycles so that all products are reused. The goal is for no trash to be sent to landfills, incinerators, or the ocean. They will also learn all about e-waste, or electronic waste, and ways to stop the cycle of e-waste dumping!

## [Nursery and Partnerships](#)

June 18, 2020 | Taisia Osipova and Steve

LandHealth's native plant nursery re-builds natural and human habitat in Philadelphia. Part of LandHealth's mission is to introduce people in our region to the pleasures and benefits of using native plants in landscaping. Our native plant nursery in Parkside, West Philadelphia, specializes in growing plants that occur naturally in our area. We want everyone to know that these locally-adapted plants are...

What's Going on at Our Nursery?

Look at the *Rudbeckia Fulgida* growing at our nursery right now!

*Rudbeckia Fulgida*, also known as the Black Eyed Susan, is a flower

native to eastern North America. They feature daisy-like petals and bloom a bold yellow color. They typically grow up to 4 feet and are a perfect cute flower. Their bright, golden hue is sure eye catching in any garden!

You can add native plants, like the **Rudbeckia Fulgida**, to your own garden! Click the link below to learn about the large variety of native species we offer at our nursery and how you can get some too!
